EDUCATION

Full–Stack
Masai School
November 2023-present

B.Tech
J.C.D.V. College of Engineering
July 2019 - May 2023

TECHNICAL SKILLS

- JavaScript
- Responsive Web Design
- CSS3
- HTML5
- React
- Git
- MongoDB
- Typescript
- Redux
- Node.js
- Express.js

SOFT SKILLS

- Teamwork
- Attention to Detail
- Time Management
- Problem Solving
- Effective Communication
- Adaptability

PROFESSIONAL SUMMARY

As a dedicated and highly motivated Full Stack Web Developer, I possess strong proficiency in JavaScript and experience with the MERN stack (MongoDB, Express.js, React.js, Node.js). With expertise in designing and developing efficient server-side APIs using Node.js and Express.js, I am adept at creating and optimizing database models and queries using MongoDB. Collaborative and detail-oriented, I continuously stay updated with the latest web development trends to enhance the development process and ensure software excellence.

PROJECTS

PetPals   Live Demo Link   Github Repo Link

Redux |React |MongoDB |RESTful APIs |Express.js | Responsive Web Design

- Collaborated with a team of 4 to translate project requirements into a functional pet adoption platform.
- Designed and developed efficient server-side APIs using Node.js and Express.js to facilitate smooth operations.
- Implemented and maintained frontend components using React.js, ensuring an engaging user interface.
- Created and optimized MongoDB database models and queries to handle pet listings, shelters, and donor contributions.
- Ensured seamless integration between frontend and backend components, enhancing user experience.

Beyond boundries   Live Demo Link   Github Repo Link

React |Redux |CSS3 |JavaScript |Responsive Web Design

- Collaborated with a team of 5 to build a responsive outsourcing platform using React.js and Redux.
- Developed key frontend components ensuring high performance and scalability.
- Integrated the frontend with backend APIs ensuring seamless data flow and effective communication.
